We are one of those people who like the old fashion and natural way of doing things and sometimes doubt that "progress" is going in the right direction. We are coming from the shiny valley called Macedonia where the natural colors, shapes and scents are in abundance ...

We began creating natural handmade soaps for ourselves in 2005 year, mainly to stay away from industrial body care products, synthetic foaming formulas, from the chemicals and preservatives that are so harmful to our health and skin.

After a several promotions and participations on hand-craft bazaars we had a strong positive feedback from our customers and realized that our people deserve to have such products on the market. And than LaSoy has been created...

Our soaps, bath bombs, balms, creams, butters and massage products are all handmade, all natural and made in small batches with the finest natural ingredients available: cold pressed oils, wild harvested or organically grown herbs, flowers, and spices, and the high quality essential oils, natural colors... SLS and paraben free!

LaSoy is proud to be the first Macedonian company that produce natural handmade soaps on the local market.
